

Product Information

CAR-PET

Description

This product is a concentrated anti-resoil carpet shampoo that provides a rich dry foam which will penetrate deep into the carpet fiber and lift the dirt and soil. It revives the color and enlivens the fibers so that the pile actually rises with new life. No harsh scrubbing is necessary on soiled areas as the absorbent properties will lift many of the stains.

This shampoo has a built in polymer soil retardant which coats the carpet fibers to prevent soil penetration. This enables the carpet to stay cleaner longer since the invisible barrier makes it difficult for dirt particles to cling to the carpet fibers. Routine vacuuming becomes more effective and the carpet stays cleaner. A cleaner carpet means less wear and brighter appearance. This product is appropriate for use with 3 methods of carpet cleaning: rotary brush/shampoo method, dry foam cleaning method and rotary with bonnet method.

Recommended Uses

This product is recommended for use as a carpet and upholstery shampoo. **NOTE:** Before use, test color fastness of carpet by rubbing an inconspicuous section with a clean white towel dampened with diluted shampoo.

Directions

1. Remove movable furniture and vacuum carpet.
2. Dilute as appropriate for machine being used.
3. Follow manufacturer's directions for specific machine used. Let dry completely.
4. Vacuum thoroughly to remove the dried foam and with it the loosened dirt.
5. Set pile by brushing in one direction with a pile brush.

Rotary Machines

1. For normal soil conditions dilute 6 oz. (3/4 cup) shampoo to one gallon of water. This may vary somewhat according to soil conditions and equipment being used.
2. Scrub across carpet, drop down the width of half the brush diameter and scrub in opposite direction. This will give you an overlapping and double scrub from opposite direction for better cleaning.
3. Release shampoo sparingly, building enough suds to guide you.

Foam Type Machines

1. For normal conditions dilute 8 oz. (1 cup) shampoo to one gallon of water. This may vary somewhat according to soil conditions and equipment being used.
2. Scrub across carpet, drop down the width of half the brush diameter and scrub in opposite direction. This will give you an overlapping and double scrub from opposite direction for better cleaning.
3. Release shampoo sparingly, building enough suds to guide you.

FOR BEST RESULTS, VACUUM WHEN DRY.

CAUTION: EYE IRRITANT. CONTAINS ORGANIC SURFACTANTS AND POLYMER EMULSIONS. Avoid getting product into eyes. If it does, rinse eyes with plenty of water for at least 15 minutes. If irritation persists, see a doctor. Do not take internally.

Specifications

Type product	Biodegradable rug shampoo
Weight per gallon	8.35 lbs.
Percent solids	8.75 ± .25
Appearance	Light blue, translucent
Odor	Neutral
Viscosity (Gardner-Holdt tube)	Less than A-1
Miscibility	In all proportions with water
Freeze/thaw stability	Passes 3 cycles
Cloud point	None to freezing
pH	8 - 9
Coverage:	
Rotary (6 oz./gal.)	2200 sq. ft. per gal.
Foam (8 oz./gal.)	1700 sq. ft. per gal.
